Short RESEDA presentation

RESEDA is a no profit organization.

It has the objective to achieve the general interest of community towards the human promotion and social integration of citizens through the offer of activities aimed to labour inclusion of disadvantaged persons.

Cooperative **RESEDA** binds the social aim together with the defence of nature and the implementation of ecological projects.

The RESEDA slogan:
Energy to share, a future to preserve!

RESEDA was founded in 1999

It also employs disabled and disadvantaged people.

Field of activity:

Practiced ecology and renewable energy sources (RES).

RESEDA carries out:

- Research projects;
- Technical training;
- Dissemination of ecological practices;
- Demonstratives projects.

**A printed presentation is available on folder.*

RESEDA - Experiences

European project
